WORK EXPERIENCE

Visa

USA

Full Stack Developer

Aug 2023 - Present

- Engineered scalable RESTful APIs with Spring Boot and Node.js to support more than 1 million concurrent users, resulting in improved system performance by 25% and increasing response times to under 200 milliseconds.
- Developed and optimized a robust web application using Java, Spring Boot, and React.js, achieving a 40% reduction in page load time while serving over 10,000 daily users across multiple platforms.
- Streamlined development processes by implementing Git for version control across a team of 10 developers, which reduced code integration issues by 30% and accelerated project timelines by an average of two weeks per cycle.
- Collaborated with cross-functional teams to optimize database queries for Microsoft SQL Server and MongoDB, leading to improved data retrieval times by up to 50% and significantly increasing the efficiency of data processing tasks across multiple projects.
- Spearheaded the integration of cloud technologies across AWS services such as EC2 and RDS to streamline deployment processes, achieving a deployment frequency increase of 40%, which contributed to a faster time-to-market for new features.
- Orchestrated the migration of legacy systems to modern cloud-based architectures, successfully reducing operational costs by \$200K per year while increasing uptime reliability from 85% to 99.9%, significantly enhancing user experience.

Salesforce

India

Full Stack Developer

Jan 2019 - Jul 2021

- Collaborated with cross-functional teams to implement Agile methodologies in project workflows, resulting in a productivity boost of 30% and successful delivery of projects ahead of schedule on more than 10 occasions.
- Led the migration of legacy systems to AWS cloud infrastructure, reducing operational costs by \$200K annually and improving system reliability with a 99.9% uptime across all services.
- Developed and deployed over 15 robust web applications utilizing Java, JavaScript, and Python, resulting in a 30% increase in user engagement and a reduction of page load times by 40%.
- Orchestrated the migration of legacy systems to AWS cloud infrastructure, reducing operational costs by 30% and improving system scalability, enabling the deployment of over 100 new features within an accelerated timeline of just six weeks.
- Led cross-functional team collaboration on a cloud migration project utilizing AWS services such as EC2 and RDS, successfully reducing hosting costs by \$150K annually while increasing system reliability by over 25%.
- Implemented automated testing protocols using JavaScript frameworks, reducing the average bug resolution time by 60% and increasing overall code reliability to 98%.

EDUCATION

Wichita State University

Wichita, KS

Masters in Computer Science

Graduation Date: Jul 2023

SCSVMV University

Tamil Nadu, India

Bachelor's in Electronics and Communication

Graduation Date: Jul 2020

SKILLS

Programming Languages: Java, JavaScript, C++, Kotlin, Swift, J2EE, C#, Python

Web Technologies: HTML5, CSS, AJAX, JSON, jQuery.

Frontend Frameworks/Libraries: Angular, React.js, Bootstrap, Tailwind

Backend Technologies: Spring Framework (Spring Boot, Spring MVC, Spring Security), RESTful Web Services, Node.js, .NET

Databases: Microsoft SQL Server, MySQL, MongoDB, Oracle, PostgreSQL, DB2.

Tools: Git, Android Studio, XCode, Figma, Visual Studio Code, JIRA, AWS, Postman, Junit, Eclipse.

Cloud Computing: AWS (Lambda, EC2, SNS, RDS, S3, SQS, Elastic Load Balancing), GCP, Azure, Firebase.

Other Skills: Data Structures and Algorithms, Problem-Solving, Clear Communication, Critical Thinking, Strategic Thinking, Team Collaboration, Time Management.
